MINE VENTILATION FANS AND SYSTEMS

Ventech is the official Canadian Market agency for the TLT Turbo Fan Group, one of the world's leading fan manufacturers and ventilation systems solution providers.

LEADING TECHNOLOGY

TLT Turbo has been revolutionizing the mine ventilation industry with constant innovations and patented solutions to manage even the most complex ventilation requirements.

Through this partnership, Ventech has exclusive access to their extensive line of products from larger Mine Axial Fan and Mine Centrifugal Fan Systems to their smaller Auxiliary and Booster Mine Fans.

All fans conform to Canadian electrical, mechanical and operational specifications.

Their extensive product line has efficiency in mind with up to 90% efficiency in Centrifugal Fan Systems (Airfoil Blades) and Axial Fans Systems.

WHY TLT-TURBO?

- » Range: SMF 18/8 1 to SMF 32/16 1 (1800mm to 3200mm)
- » TLT Blade coating system for wear protection
- » No forced air motor cooling is required
- » VOD ready, stand alone control unit
- » Adjustable Pitch for optimisation
- » Reduced cost of ownership

MAINTENANCE IN MIND

- » Easy mounting of hub onto motor shaft for quick maintenance
- » Global Supply Chain agreement with motor manufacturer
- » Horizontal split casing for ease of transportation, assembly and maintenance

Contact Ventech today to find a configuration specific for your site and underground requirements!
